LETTER FROM THE EDITOR

The opportunity lies in delivery

By Nayra Delgado

Dear readers,

The International Monetary Fund projects Mauritania's growth at 4.4% in 2026, alongside 8% inflation. Behind those national figures are projects at very different stages: phosphate processing has begun, offshore exploration contracts have been signed, and investment in water, power and digital networks is moving through approval and procurement.

International companies need to know where their capabilities meet a defined need. At Bofal–Loubboïra, **Atlantic Minerals** reports 450 tonnes an hour of crushing capacity. At Leweid, an open works tender targets irrigation for 20,000 hectares.

Bloomberg's 19 November report that **bp** is weighing a sale of its 56% GTA stake adds a new question: who will fund the next phase? No transaction is confirmed. Our sector pages keep ownership, investment and procurement distinct.

MG Connect covers **CEM**'s membership, our business missions and the Tierra Firme diploma ceremony. As a Strategic Partner of MSGBC, we are also preparing meetings in Dakar on 1–3 December.

THE BIG STORY

The industrial turn

Phosphate processing opens a new chapter in Mauritania’s mineral economy

Bofal–Loubboïra · Processing equipment · Company / supplied imagery

ATLANTIC MINERALS

Processing has begun at Bofal–Loubboïra, 390 km from Nouakchott. The plant turns relatively low-grade phosphate ore into concentrate for the fertiliser supply chain.

Atlantic Minerals, working with the Mauritano-Saudi licence holder, reports a rise from about 18% ore grade to 30–32% concentrate. The commercial question is how equipment, logistics and customer contracts will support that production.

PLAN MY MEETINGS

THE BIG STORY

Production is a start

The next milestones are customer contracts, exports and repeatable delivery

Processing capacity is an industrial milestone. It does not establish a sales price, a confirmed customer or an export timetable. The first export from Bofal–Loubboïra remained unconfirmed at this edition's cutoff.

The reported equipment capacities are 450 tonnes an hour for crushing and 250 tonnes an hour for the wet plant. These describe different stages of the process. They are not annual production forecasts and should not be added together.

The resource figures also require care. The project reports 213 million tonnes of resources, including 159 million tonnes measured and indicated. A further 111 million tonnes is an exploration target, rather than an established resource.

450 t/h

CRUSHING CAPACITY

250 t/h

WET-PLANT CAPACITY

213m t

REPORTED RESOURCES

Where business may follow

Maintenance, spare parts, water management and transport could create supplier needs. The operator's requirements will determine whether these become commercial openings.

Operating results, binding offtake, exports and procurement notices will provide the next evidence. These milestones should not be assumed from the plant's stated capacity.

NEXT MILESTONE

First export Unconfirmed at cutoff

REQUEST A BRIEF

ENERGY & MINING

BP WEIGHS A GTA EXIT

Bloomberg · 19 November 2026 · A possible transaction, not a confirmed sale

Greater Tortue Ahmeyim · **bp** archive photograph

BP

Ownership and operations

Bloomberg reported on 19 November that **bp** is weighing a sale of its 56% stake and operatorship in GTA, the gas project shared by Mauritania and Senegal. The move could reduce debt and exposure to future expansion spending.

TRADING RIGHTS

LNG sales could stay with bp

Even after selling, **bp** could retain the right to lift and market all LNG cargoes. First exports began in April 2025. The project's other partners are **Kosmos Energy**, Mauritania's **SMH** and Senegal's **PETROSEN**.

NO SALE CONFIRMED

A limited buyer pool and the political sensitivities of a cross-border asset make a transaction uncertain. No final decision or buyer has been announced.

PLAN MY MEETINGS

ENERGY & MINING

GAS & OFFSHORE EXPLORATION

Exploration, LNG exports, gas development and aviation fuel are distinct tracks

MURPHY OIL

90% / 10%

C10 and Tiof return to exploration

Contracts signed on 3 November give **Murphy** 90% and state hydrocarbon company **SMH** a carried 10% in 12,550 km² of blocks. Tiof was discovered in 2003. The ministry's historical 280m-barrel estimate does not represent newly certified commercial reserves.

GLOBAL COMPANY FIGURES

Q3 output: 186,500 boe/day; net income ≈€155.5m. Global 2026 capital guidance: €1.36–1.45bn. Founded 1950; listed 1956. No Mauritania-specific capital budget was disclosed.

GTA / LNG

Third-quarter exports rise 16%

Exports reached 603,000 tonnes in Q3 2026, against 521,000 a year earlier. China took 152,000 tonnes; Bangladesh 135,000; Italy 122,000 versus 141,000 previously. Nominal annual capacity is 2.7m tonnes. Guidance: 32–36 gross cargoes for the full year.

GOGAS / TAQA ARABIA

Banda–Tevet and gas development

The gas-field licence's 11-month extension ends 15 December 2026. **GoGas/TAQA Arabia**'s Rosetta and the separate 230 MW N'Diago scheme remain in development. This is not an announced production start.

CIVIL AVIATION

A separate fuel study

On 17 November, civil aviation received an EU-backed International Civil Aviation Organization study on sustainable aviation fuel. It is a study, rather than an announced investment in a fuel-production plant.

PLAN MY MEETINGS

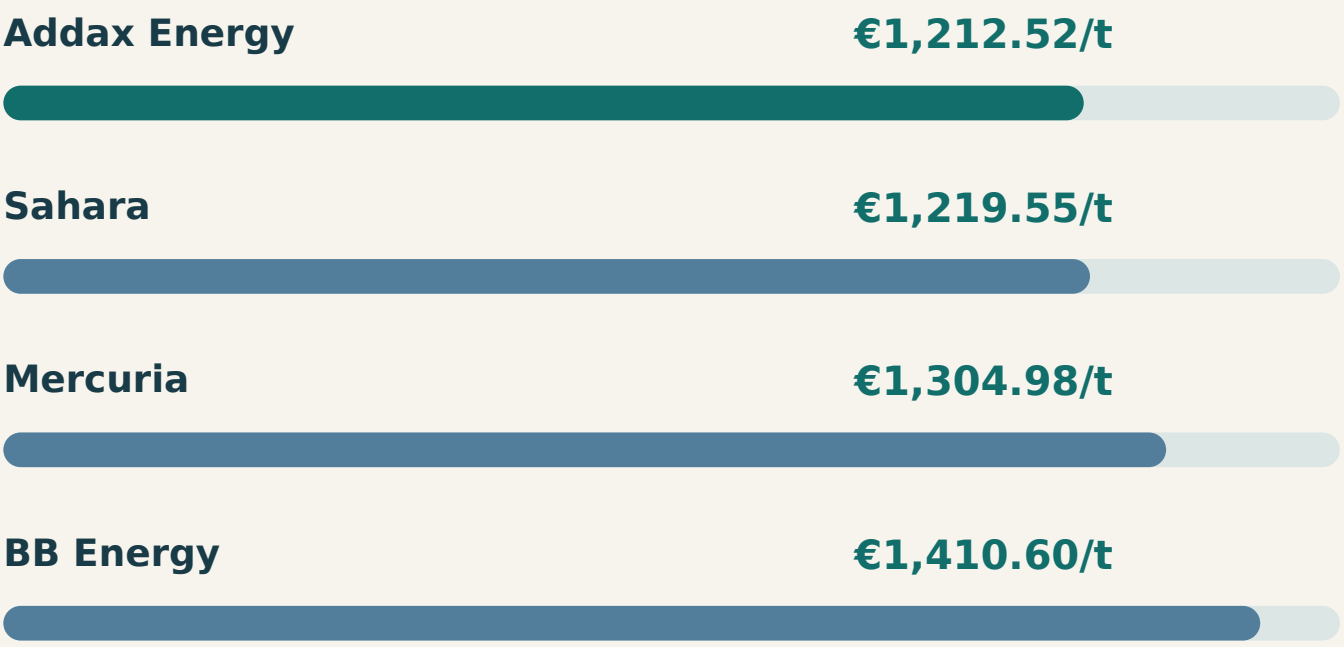

ENERGY & MINING

FUEL SUPPLY & CORPORATE CHANGE

Import supply and corporate ownership are separate developments in the downstream market.

3 DECEMBER

Start of **Addax Energy**’s six-month supply period

Seven firms bid and four were accepted after **Trafigura**, **BGN** and **Vitol** were excluded administratively. These averages are wholesale prices per metric tonne, not pump prices: the product mix and pricing formula limit retail comparisons.

Addax’s new supply period begins on 3 December, extending its role since 2016. **Oryx**’s reported October change of control involves Moussa Diao and Hervé Bouvet; the roughly €909m price is a press estimate. The business operates in 17 African markets, with financing reportedly from **Afreximbank**.

PARTNER MESSAGE / MG SERVICES

MAURITANIA GATEWAY

Find defined logistics and downstream needs.

Wholesale tender averages are not retail pump prices.

CONTACT MG

ENERGY & MINING

ELECTRICITY & GRID LINKS

Cross-border power links create engineering packages, each at a different procurement stage.

1,373 km
225 kV interconnection

600 MW
Mauritania–Mali capacity

50 MW
Kiffa solar component

IMPLEMENTATION | EARLIER CONTRACTS

Construction corridors are identified

SOGEM's April awards placed Yélimané–Tintane–Kiffa with **Sinohydro/SOCOL** and Tintane–Aïoun with **JSPDI/CPECC/CPECC International**. **Artelia/S4E** supervises the works. The Mauritanian sections cover 114 km and 70 km, worth about €122.7m together; individual contract values were not disclosed.

EASTERN NOUAKCHOTT SUBSTATION

A provisional award, not an open main lot

MBH Power's provisional 225/33 kV award is worth about €15.23m, with delivery over 485 days. Fourteen firms bid. A challenge was rejected on 14 October, but the reviewed evidence does not establish a subsequent final contract signature.

TYPSA–MCG | 31 EXPRESSIONS OF INTEREST FOR THE WESTERN LINES

Nouakchott–Néma lot 1-C | definitive, 16 Oct	**€3.10m / 45 months**
Nouakchott–Aleg / El Ghaira–Kiffa | definitive, Nov report	**€3.64m / 48 months**
Kiffa solar + storage | intention, 8 Sep	**€2.04m / 37 months**

The roughly €807.3m programme includes about €275.4m from the African Development Fund (€245.1m for Mauritania and €30.3m for Mali), targeting 100,000 households (80,000/20,000). Studies cover 100 MW at Néma/Yélimané; Desert to Power targets 10 GW in 11 countries. Morocco-link studies are complete, but capacity, financing and dates remain unspecified.

MINE DEVELOPMENT

Two operators, two distinct investment programmes

ESSAR / SNIM

€727m

Askaf gains rail access

A 2 November agreement in Paris gives **Essar** access to **SNIM**'s railway for its Askaf iron-ore project. The mine targets 7.5m tonnes a year and around 2,000 construction jobs. The six-month start-up objective remains a project target.

AURA ENERGY

€318m

Tiris awaits an investment decision

The uranium study estimates after-tax value at €454.8m and a 28% internal rate of return at €81.82/lb. It models 1.8m lb annually for 26 years. A decision is targeted for December 2026 and production for end-2028; financing and board approval remain outstanding.

PLAN MY MEETINGS

ENERGY & MINING

EXPLORATION & INDUSTRIAL RULES

New drilling, institutional talks and a separate registration deadline

ZEUS / TAYSSIR DRILLING

A copper–gold campaign at Diaguili

Zeus hired **Tayssir Drilling** for a mid-November copper–gold campaign at Diaguili. This is exploration, rather than mine production.

MTAIC / MAADEN

Turkish mining cooperation

Turkey’s state mining company **MTAIC** signed with **Maaden** on 6 November. The agreement adds a separate institutional channel for mining cooperation.

US / DELOITTE

Another set of talks

Discussions followed on 10 November. These are separate from the Turkish agreement and do not establish a disclosed investment commitment.

APPIAN

≈€4.55bn

A fund manager explores the market

The investment manager, with around €4.55bn under management, is exploring opportunities in Mauritania. That amount describes its wider portfolio; it is not a Mauritanian project allocation.

INDUSTRIAL REGISTRATION

31 DEC 2026

A new deadline for establishments

The Government extended the deadline for industrial establishments to regularise their status from 20 November to 31 December 2026. This is an administrative requirement for operators, separate from the exploration and investment announcements.

REQUEST A BRIEF

ENERGY & MINING

MINERALS: STRATEGY & FINANCE

National iron ambitions and finance institutions have different scopes

NATIONAL IRON STRATEGY

Two production targets

Mauritania aims for 30m tonnes a year of iron ore by 2040 and 30m tonnes of pellets by 2045. Pellets are a processed iron product used by steelmakers; this is a national industrial ambition, separate from **Tasiast**'s gold activity.

MINERAL EXPORTS

€2.7bn → €7.1bn

A larger export ambition

The national objective is to raise mineral exports from roughly €2.7bn to €7.1bn. It is a sector-wide target covering minerals, rather than a sales forecast for a single gold mine.

AFRICA FINANCE CORPORATION

Iron investment under consideration

AFC is considering Mauritania among markets for iron investment. No named transaction or investment decision was disclosed. Its interest belongs to the project-development outlook, rather than the list of awarded contracts.

WORLD BANK

€17.3bn

A global mining ambition

The institution's €17.3bn ambition for 2026–30 covers its wider international mining agenda. It is not an announced €17.3bn allocation to Mauritania.

PARTNER MESSAGE / MG SERVICES

PROJECTS & INFRASTRUCTURE

WATER: WHAT IS BEING BUILT?

Idini supplies the capital; desalination and inland studies are separate projects

IDINI / NOUAKCHOTT

€65m

More groundwater reaches the capital

Idini is the groundwater well field supplying Nouakchott. On 18 October, the Prime Minister announced completion of its €65m expansion, before the 3 December contractual deadline. Supply rose from 45,000 to over 100,000 m³/day. Works include 20 new wells, rehabilitation, nearly 60 km of pipes, storage and dedicated power.

TOYOTA TSUSHO

50,000 m³/day

Desalination proposed for Nouadhibou

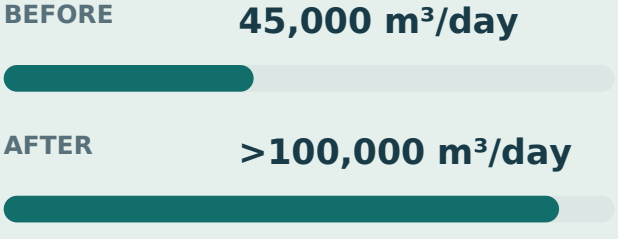

The proposed plant would convert seawater into drinking water for the northern port city. Its financial offer was still awaited at cutoff; this is a different project from the completed Idini works.

BENICHAB–AKJOUJT

Supply studies continue

This inland water-supply proposal remains at study stage. It has not reached the same implementation milestone as Idini.

WATER FROM IDINI

NETWORK LOSSES

Nouakchott: 57% in 2024

Additional production needs a distribution network that can deliver water to homes and businesses.

INFRASTRUCTURE BRIEF

PROJECTS & INFRASTRUCTURE

PORTS, MOTORWAYS & MAINTENANCE

Four distinct announcements, each with its own status

NOUADHIBOU DEEPWATER PORT

JAN 2027

Construction targeted for January

On 7 November, the Prime Minister targeted January 2027 for works to start. The announcement did not disclose a project cost, funding arrangement or contractor.

NOUAKCHOTT–BOUTILIMIT

A motorway partnership in negotiation

Studies for the proposed motorway are complete. A public–private partnership contract is under negotiation, but no start date or contract value was announced.

ETER

€53.3m

Maintenance of existing roads

The 2025–27 framework provides €40m for national roads and €13.3m for urban roads. **ETER** is the public road-maintenance organisation; delays drew ministerial criticism.

ATAR–AKJOUJT

€38.9m

A separate construction programme

The first 76 km launched in September carry an estimated €38.9m cost and a 20-month execution period. Some commentary rounds the section to 75 km. These works are outside **ETER**'s maintenance envelope.

PARTNER MESSAGE / MG SERVICES

MAP THE PROJECTS

PROJECTS & INFRASTRUCTURE

RURAL INVESTMENT

Irrigation, drinking water, grants and rural development have separate funding routes

SONADER / LEWEID

An irrigation tender for 20,000 ha

The state-financed works competition closes 17 December, 12:00 GMT. Maximum execution is 16 months excluding the rainy season. The Business Desk provides the official notice and qualification requirements.

STAIM / AZIMA

Rakba irrigation project

The €15.56m scheme in Dar El Barka targets 1,575 hectares and 55 village groups, with three pumping stations. Islamic Development Bank and state financing support it; tests began in late September.

JAPAN

Two separate agricultural grants

Two grants of about €2.26m each (€4.51m total) support agricultural-training equipment and strategic food stocks.

BRAKNA IRRIGATION

Four works lots await award

The revised scheme covers 4,303 hectares. Eleven axes total 28.536 km, divided into lots of 3.36, 8.96, 8.98 and 7.22 km, each over eight months. The scope was revised from 4,500 ha. A Global Agriculture and Food Security Program grant supports the works. The competition has closed; package values were not disclosed.

PROGRES / IFAD

More time for a six-region programme

The International Fund for Agricultural Development extended PROGRES 15 months from 31 October 2026. €8.09m remained undisbursed at 30 June. Plans include 17 collective and 170 family dams, 16 ponds and 10 boreholes; €783,800 supports 44 microprojects in 21 villages. Adrar/Tagant expansion was discussed on 22 October.

BLUE ECONOMY

FISHERIES & THE BLUE ECONOMY

Access to fishing grounds, fleet exposure and research are separate stories

EU / MAURITANIA

EU fleet access stops

The five-year protocol expired on 14 November; negotiations continue. It provided €60.8m annually (€57.5m for access, €3.3m sector support), plus shipowner fees. Its ceiling was 280,050 tonnes for ten EU states. A 10% fee increase was proposed, not agreed.

EU FLEET / PORTS

The commercial exposure

Around 60 vessels were concerned, including 25 from Andalusia and roughly 500 regional jobs. Cádiz, Algeciras, Huelva and Seville warned of €40–50m in potential losses. On 18 November, Mauritania stressed that the wider partnership continued.

TSUNEISHI MIHO / IMROP

Japan’s ≈€16.82m grant funds a scientific vessel launched in Niigata on 29 October, with delivery envisaged in spring 2027. The 43.5 m × 8.3 m, 1,400 hp ship will assess fish stocks for IMROP, Mauritania’s fisheries research institute. It honours Masaaki Nakamura, who promoted octopus-pot fishing from 1983.

ECONOMY & SOCIETY

THE ECONOMIC OUTLOOK

Growth, prices and the public-investment test

4.4%

IMF growth forecast

2026 outlook; IMF inflation projection: 8%.

5.0%

Government growth assumption

For 2027; inflation assumption: 3.3%.

WHY THE NUMBERS DIFFER

The Government’s budget model assumes growth of 5.5% and inflation of 7.5% in 2026, then 5% and 3.3% in 2027, with oil at €79.45/barrel. Its projections differ from the IMF’s; neither is a final measured outcome.

€25.24m

IMF debt service in Q4 2026

€21.96m principal + €3.28m interest. €11.77m fell due on 27 October; €10.18m principal falls due from 25 November to 18 December.

THE NEXT POLICY STEP

The IMF review ended on 13 November. The Government is developing a vision to 2060, while its draft budget increases investment and relies more heavily on extractive revenue.

THE 2027 BUDGET

Where every €100 of proposed spending goes

DRAFT SPENDING | €3.242BN

- **Investment**
  €1,468.9m | 45.3%
- **Wages**
  €760.4m | 23.5%
- **Subsidies / transfers**
  €396.4m | 12.2%
- **Goods / services**
  €300.2m | 9.3%
- **Debt interest**
  €108.9m | 3.4%
- **Other current spending**
  €207.6m | 6.4%

45.3%

Public investment takes 45.3% of proposed spending. These are budget allocations, rather than contracts open to bidders.

+€137.8m

Headline budget balance

−€467.3m

Primary balance excluding extractives

PLAN MY MEETINGS

ECONOMY & SOCIETY

WHAT CHANGES IN 2027

2026 amended budget → 2027 proposal

Current spending edges down from €1,780.0m to €1,773.6m (−0.4%), while extractives' revenue share rises from 19.0% to 21.1%. Debt falls from 36.9% to 33.1% of GDP. The headline balance moves from −€18.2m to +€137.8m, or 1% of GDP.

Domestic funding provides €1,175.8m, or 80%, of investment; external funding reaches €293.1m (+36.8%). Grants fall to €106m (−21.6%). The non-extractive primary deficit narrows from about €493m/4.0% of GDP to the €467.3m/3.5% ceiling. The 9 November vote concerned the Government programme, not the budget.

ECONOMY & SOCIETY

DEVELOPMENT FINANCE

Approved public financing supports social services; procurement follows through project packages.

≈ €87.3m — **World Bank / IDA package**

€69.1m in loans + about €18.2m in grants

WORLD BANK / IDA | RATIFICATION

≈ €87.3m

Three packages, one financing sequence

The agreements allocate a €19.7m loan and €6.9m grant to social protection, a €23.6m loan and €11.3m grant to education, and a €25.8m loan to digital infrastructure. October's announcements and the 13 November parliamentary review concern the same financing, rather than additional packages.

FRANCE | NOVEMBER

€41m + €25m

Water, civil protection and skills

France's €41m water agreement aims to connect 150,000 more users and serve 1.6m people in Nouakchott and Nouadhibou. Separate €25m conventions provide a €21m civil-protection loan and €4m for technical training over three years. The wider €39.3m civil-protection project includes ten centres.

FINANCING TERMS & CONTEXT

IDA loans carry reported interest of 1.5%, a 0.5% commitment charge and five years' grace; social and education loans run for 25 years, digital for 20.

France also reports €9m for marine biodiversity in 2026–31 and a prior €40m water package (€35m loan, €5m grant). Its €385m portfolio and €428m of 2025 interventions use different scopes and should not be added.

PLAN MY MEETINGS

ECONOMY & SOCIETY

NEW FINANCING CHANNELS

Different institutions, different purposes: three transactions and three EU envelopes

These announcements expand SME finance, infrastructure lending and trade guarantees. Each operation has its own borrower, purpose and terms; the EU programmes below are separate envelopes.

KfW

€15m

SME FINANCE & JOBS

KfW signed the grant on 3 November to support small and medium-sized enterprises and employment.

SPAIN

€50m

RIVER-BASIN LOAN

Parliament approved the loan on 28 October. It runs for 30 years, with five years' grace and a reported 1.42% rate.

BII / IFC

≈€9.09m

TRADE GUARANTEE

BII signed the **IFC**-backed agreement on 11 November to support import and export transactions.

EUROPEAN UNION

€64m

CIVIL COOPERATION

The 2026 annual programme is approved. Its energy allocation has not been detailed.

€75m

PEACE FACILITY

A fourth €20m measure raised the total. An earlier measure rose from €20m to €28m and from 36 to 60 months.

€40m

PRIOR CIVIL PACKAGE

This earlier programme comprised €25m for southern-border development and €15m for health.

PUBLIC DELIVERY & GOVERNANCE

Delivery figures and proposed procurement rules shape the public projects companies can pursue.

PRIME MINISTER | 7 NOVEMBER

A broader social safety net

The Government says transfers now reach more than 350,000 households. Health-insurance coverage rose from 496,000 people in 2019 to over 1.4m in 2026, alongside 279,000 solidarity-insurance beneficiaries and 45,000 students.

More than 1,300 teachers benefited from the housing fund, while fuel and electricity support exceeded €177.8m in 2026.

ESSENTIAL-SERVICES PROGRAMME

Execution lags plans

The €587.6m programme for 2025–27 targets 6,115 classrooms, 104 health facilities, 939 boreholes and over 2,300 youth-led businesses. By 30 September, €276.4m was committed and progress stood at 50.77%, against 71.76% of time elapsed; water reached 13%. Across 104 active contracts, €1.433bn was committed, progress was 56.65% and disbursement 37.76%.

PROCUREMENT | 4 NOVEMBER DRAFT

Beyond the lowest price

A draft procurement reform would introduce national preference and assess bids on lifetime cost, quality, maintenance and environmental performance. The preference rate is not yet specified. A procurement observatory, stronger oversight, qualified commissions, asset and interest declarations and digitisation are planned; application awaits the final rules.

BUSINESS RULES | OCT–NOV

Transparency & licences

GIZ tender 10056369A closes on 20 November for ownership-transparency work from 21 December 2026 to 31 December 2027; a 2024 sample found 66% non-disclosure. Overseas-agency licensing closed on 11 November, requiring a local base, Mauritanian representative, three staff and a €44,444 guarantee for renewable five-year licences. Employers pay recruitment fees.

HEALTH & SKILLS

Public-service announcements matter for equipment suppliers, training providers and local employers

Alongside the household survey, the period brought announcements on health facilities, medical regulation and access to education. The two tracks below separate healthcare needs from education and youth programmes.

HEALTHCARE

28

Health centres targeted

Nouakchott is the commissioning priority.

Transplant cooperation

Latium’s transplant centre will support kidney and liver transplantation through staff training, expert missions, an immunology laboratory and a kidney-disease register.

SIX DRAFT DECREES | 21 OCTOBER

Final rules and authorisations are pending.

- **Medical devices**
- **Pharmaceutical production**
- **Controlled substances**
- **Optical professions**
- **Special-diet products**
- **Laboratory reagents**

EDUCATION & YOUTH

22,730

Scholarship students

2026 total, up from 6,800 in 2019 (+234%).

Access to education

Free transport reaches 9,700 social-register students. The Government reports 7,600 classrooms built since 2019.

Sport and youth facilities

The two-year, 100-pitch programme includes ten capital sites: 2 in Dar Naïm, 6 in Toujounine and 2 in Riyadh. Another 26 interior sites are under way.

BUSINESS DESK

TRADE & PARTNERSHIPS

Established trading routes and new institutional contacts are distinct parts of the international picture

The figures below describe existing trade. Business-promotion visits seek to build new relationships, while migration and employment agreements belong to a separate cooperation agenda.

€342.6m

Morocco–Mauritania trade

2025: +15%; target €555.6m by 2030.

€131.4m

Canary Islands goods trade

2025: €72.5m exports / €58.9m imports.

MOROCCO

Morocco supplies 37% of Mauritania's Africa-origin imports. Mauritania is its second African and first Arab export market. Morocco Week brings over 50 firms through 22 November.

ALGERIA

Tindouf's 200 ha trade zone is targeted for completion by end-2026.

CANARY ISLANDS

The islands have 285 exporters to Mauritania, including 108 regular exporters, and supply 32.7% of Spain's exports. Industry represents 43.3%, food 25.3% and fuel 22.8% of exports; seafood accounts for 82.5% of imports.

UNITED STATES

Goods exports to Mauritania totalled €151.9m, compared with €5.9m in imports.

APIM PROMOTION

APIM promoted investment in Doha on 27 October and Madrid on 30 October, and agriculture in Murcia on 9–11 November with the bilateral Business Council.

OTHER COOPERATION

Spain–Mauritania migration/security talks: 3 November.

Barcelona–Nouakchott training/employment protocol: 4 November.
